

Útmutató új felhasználói fiók létrehozásához az IDT és a Bio-Science közös oldalán

1. Látogasson el az www.eu.idtdna.com oldalra és klikkeljen a *Sign In* felíratra
Kérem győződjön meg, hogy a Sign In felirat mellett a **magyar nemzeti zászló** szerepel, amennyiben nem ezt látja a bekeretezett részen (alapesetben felismeri az oldal a magyar IP címet kevés kivétellel), kattintson rá és válassza ki a legördülő menüsorból!

The screenshot shows the top navigation bar of the IDT and Bio-Science website. At the top, a light blue banner contains the text "SARS-CoV-2. Don't let up. We'll help." Below this, the IDT logo (Integrated DNA Technologies) is on the left, followed by a search bar and a magnifying glass icon. To the right of the search bar is a "SIGN IN" button with a small Hungarian flag icon next to it, which is highlighted by a red rectangle. Below the "SIGN IN" button is a shopping cart icon and the text "0 ITEMS 0,00 FT HUF". A red arrow points from the text in the instructions to the Hungarian flag icon. Below the navigation bar, there are links for "PRODUCTS & SERVICES", "APPLICATIONS & TECHNOLOGIES", "SUPPORT & EDUCATION", "TOOLS", and "COMPANY". Further down, there are links for "Bio-Science Website" and "Email Bio-Science". A large banner for "BIO-SCIENCE" is visible, featuring a stylized DNA helix and the text "THE CRISPR BASICS HANDBOOK". At the bottom, the contact information for Bio-Science Kft. is provided: "1119 Budapest, Fehérvári út 79. | Tel.: +36 1 619 8321 | Fax: +36 1 799 0159".

2. Válassza a *Register* opciót

SARS-CoV-2. Don't let us. We'll help.

SARS-CoV-2 components

SARS-CoV-2 probes and other COVID-19 research reagents.

CDC assay • Charité/Berlin assay
Sherlock CRISPR kit • Luminex assay

DNA & RNA

Save time and resources with industry-leading oligos manufactured to your specifications.

QUICK ORDER

Custom DNA oligos • Custom RNA oligos
Large-scale synthesis • DNA oligo pools

CRISPR genome editing

Achieve higher efficiency genome editing and avoid toxicity or innate immune responses with Alt-R products.

CRISPR-Cas9 • CRISPR-Cas12a (Cpf1)
CRISPR enzymes • Genome editing detection

Next generation sequencing

Rely on the xGen library prep kit, xGen hyb capture products, and the Illumina sequencing system for all your sequencing needs.

[Adapters • Libraries](#)

Genes & gene fragments

Reliably create genomic constructs with sequence-verified gBlocks fragments or simply order cloned products for convenience.

[Double-stranded DNA fragments](#)

qPCR & PCR

Experience greater sensitivity and better confidence in your data with PrimeTime and iQAMP products.

[Primer/probe • Assays](#)
